NOVEMBER 2023 NEWSLETTER

LETTER FROM THE PRESIDENT

Dear TAPL members,

I hope that you and your family had a wonderful and relaxing Thanksgiving holiday! It's hard to believe the end of 2023 is near and 2024 is just around the corner. TAPL has had a very busy year with several successful events in the books and we are picking up steam as we move into the holiday season.

For those of you able to attend our November dinner meeting at the Summit, I am sure you were very impressed by our State Legislative Panel with Oklahoma State Congressmen, Mark Tedford, Mark Lepak, and Terry O'Donnell. A big thank you to Education Director, Lawson Vogel for putting together and moderating this outstanding and informative panel.

Don't forget the Oil Patch Christmas Party is set for December 7th at the historic Cain's Ballroom. We are partnering once again with ADAM Tulsa and TGS to bring you the holiday party of the year, so please plan to attend. For this event we will also be teaming up with the U.S. Marine Corps Reserve Toys for Tots Program. This extraordinary program collects new and unwrapped toys and distributes these gifts to bring some holiday cheer to less fortunate children throughout our region. Please plan to bring a toy or donation for this special cause. For those of you who cannot attend the party, please visit their website (www.toysfortots.org) and consider donating online.

As we close out the year, I want to take a moment to mention how thankful the Board and I are for each and every TAPL member. We are all truly blessed to be a part of this industry, working in this wonderful city in the great state of Oklahoma and we sincerely believe the strength of this organization and its members will continue to excel and set the standard for future organizations.

I look forward to seeing you all at the Christmas party!

Mariena Martin
TAPL President

CAREER ASSISTANCE PROGRAM

Career Assistance Program

With regard to employment in the Oil and Gas industry or at least within the "Land" realm, things have been anything but predictable for the past several years. Although current commodity prices show great promise, the job market in relation to land work has not exactly followed suit. With that being said, TAPL would like to revive the Career Assistance Program (CAP) with the goal of connecting current TAPL members who are needing help obtaining employment or contract work in our industry to Company's in need of help. If you are currently unemployed or are aware of any employers seeking to fulfill land positions, please contact the Benefits Director, Case Rycroft at caser@kfoc.net. Every inquiry will be handled with the utmost discretion as privacy is of great concern.

CAMPUS TULSA

Take your current internship opportunities to the next level with Campus Tulsa.

Campus Tulsa is the ultimate internship support team for Tulsa-area employers.

Connect with Campus Tulsa to:

- 01** Recruit more diverse applicants for open internship roles: Campus Tulsa intentionally partners with diverse student groups, institutions, and associations to create an inclusive internship search experience — especially among first generation and students of color.
- 02** Create meaningful experiences for interns outside of work hours: Campus Tulsa programs structured professional development workshops, networking and mentorship events, and intern-only activities and outings designed to create fuller, more meaningful internship experiences for students.
- 03** Solve for logistical hurdles like intern housing: Campus Tulsa offers support with short-term housing resources and other logistics — making for a more convenient, streamlined, and appealing opportunity for potential interns. This makes recruiting quality interns from a wider range of universities in the region and across the nation easier.
- 04** Boost your internship opportunity to a wider audience: Campus Tulsa uses strategic targeting and digital marketing channels to show your internship listings to a broader network of qualified college students.

Our mission is to create more successful internships in Tulsa than ever before — for both students and employers.

"We believe employees are our most valuable asset, and if you want to attract the best talent, you have to start early. We also are passionate about helping educate tomorrow's future leaders."

Ginger Kollmann

EXECUTIVE DIRECTOR, JP MORGAN
PRIVATE BANK

"Our interns are our largest candidate pool for hiring into the professional development program. It is really important to us that we provide meaningful work for our interns, so we're mindful to align our intern headcount with value-add opportunities across the organization."

Jessica Crews

PETROTECH TRAINING PROGRAM

PetroTech Technical Training Program.

When people learn that you are a landman, the initial response is often, “Landman? What do you do?” Next comes the follow-up question: “How could I learn to be a landman?”

These questions prompted me to contact the Oklahoma Energy Resources Board (OERB) and to explain the need for a how-to-become-a-field-landman’s class. OERB quickly recognized the need for such a class due to the shortage of field landmen. As a result, OERB and Francis Tuttle Career Technology Center agreed to add a “Land and Lease Management” class to the OERB PetroTechnical Training Program. This 15-hour course begins in January 2024, and focuses on the interrelated, industry roles: Land Broker, Landman, Land Tech, Lease and Title Analyst, and Division Order Analyst.

The “Land and Lease Management” course is ideal for energetic, motivated people who are excited about learning more about the oil and gas industry and basic field land work but may not be interested in pursuing an energy management degree. So, the next time a person asks about being a landman, direct the inquiry to OERB PetroTechnical Training Program: <https://oerb.com/education/petrotech/>.

PetroTech Individual Class Application (includes Land & Lease):
