## Letter From the President

Dear Members,

I trust each of you had a relaxing and safe holiday season, and hopefully everyone got the needed recharge from the break to hit the ground running in 2015. It was great to see many of you at Cedar Ridge Country Club on the 12<sup>th</sup> for our January Social. Cedar Ridge certainly put together a great pre-game menu perfect for football along with countless TVs, which led to a great atmosphere for the college football national championship. I'd like to thank Raegan Schaffler for putting together an entertaining and great event.

Before we move on to our upcoming events, I'd like to address some issues that have been raised regarding the TAPL website. The transition from our prior website to our significantly more functional and aesthetically pleasing current website, despite with the same provider, has caused some hiccups that we are currently addressing. We've received reports that active members are being flagged as expired, despite being current on their annual dues. Another complication that we've noticed is a discrepancy in our monthly meeting registration list as compared with those who have actually registered. Our website provider has been notified of these glitches, and we hope they can address these issues quickly. I'm truly sorry for any inconveniences and complications this may have caused. If you notice any irregularities with your TAPL account, please do not hesitate to contact us immediately. Once again, I apologize for the inconvenience and would like to thank you for your patience.

As I have mentioned before, we have an exciting line-up of events this spring for our membership, and I hope to see many of you there. Please pencil the following TAPL events into your calendars:

- January 22<sup>nd</sup>: TAPL Luncheon at the Summit, featuring Tom Seng
- February 9<sup>th</sup>: February Dinner Meeting at the Summit, featuring Roger Soape (AAPL President)
- February 26<sup>th</sup>: CPL Event at Mix Co. (3<sup>rd</sup> and Denver)
- March 6<sup>th</sup>: TAPL Volunteer Day at the Community Food Bank of Eastern Oklahoma
- April 22<sup>nd</sup>: TAPL Spring Seminar at the OU Schusterman Center
- April 23<sup>rd</sup>: CPL Event at the Driller's Ballpark
- May 11<sup>th</sup>: TAPL Spring Golf Tournament at Indian Springs Country Club

Our board of directors has done a great job this year of putting together quite the exhausting list of events, so please be on the lookout for emails about their registration. I hope to see you there.

Sincerely,

Collin J. Sniff, CPL  
TAPL President

**OUR SPONSORS!!!**

Roger A. Soape, CPL, is the President of the American Association of Professional Landmen. He was named the AAPL's Landman of the Year in 2009. Roger has served AAPL on its Executive Committee and as the Chairman of NAPE, the Ethics Committee, and the Tax Issues Committee. He is a former President of the Houston Association of Professional Landmen, which previously named him its Outstanding Landman of the Year.

Roger is the President and majority shareholder of Roger A. Soape, Inc., the land services firm he founded in 1980. He is a native Texan, and attended the University of Texas at Austin. He is a trustee of The West Endowment, which distributes charitable grants to public and medical research causes. Roger is also a member of the North Houston Association of Professional Landmen, the Texas Oil & Gas Association, and the Independent Petroleum Association of America. He is an instrument-rated private pilot, enjoys flying his company's small airplane. Roger and his wife, Donna, live in northwest Houston where they are members of John Wesley United Methodist Church.

## Falling oil's next victim: banks

**(CNN) Big energy companies aren't the only ones losing out on the dramatic fall in oil prices. Banks are in the hot seat, too.**

Hundreds of banks were forced to shut down in Texas when the state fell into a recession in 1986 during a steep decline in oil prices. That 1980s meltdown mirrors the current drop in prices that carried oil below \$45 a barrel this week.

Cheap credit helped fuel the U.S. shale boom, allowing countless energy companies to find oil in new places. Banks also capitalized on economic booms in oil-rich regions like Texas and North Dakota. It would only make sense for these same banks to feel some pain from oil's downward spiral.

Drilling projects that made sense at \$100 may now be losing money, creating headaches for the lenders that financed the expansions. Some highly-leveraged shale companies may even go belly up due to the plunge in oil prices.

But there's also the economic fallout of the energy meltdown. It's great for consumers saving money on gas, but Texas is bracing for a wave of layoffs and a possible oil-fueled recession. Other big energy regions like North Dakota, Oklahoma and Alaska are also facing economic headwinds.

**Bank losses likely to grow:** If the oil plunge causes certain economies to stumble, banks are likely to be hit by higher credit losses and a slowdown or even decline in loan growth. Likewise, fees for wealth management and customer activity could be dented.

"If you're a small bank in Texas or North Dakota, the risk goes well beyond drilling for oil or gas. You funded the mobile homes that workers live in, the doctor's office and other facilities that live off the energy industry," said Dick Bove, a banking analyst at Rafferty Capital Markets.

"There's no question about the fact that energy is going to be a big issue for banks, particularly the ones closely associated with production areas," he said.

**Banks feeling the energy heat:** So which banks are most at risk to the current oil plunge? Morgan Stanley says to look at the ones with a significant chunk of their deposits located around previously-hot shale regions, including the Bakken, Eagle Ford, Niobrara and Permian plays.

# PetroQuest

The U.S. banks with at least \$1 billion in assets that have the greatest percentage of deposits in these regions are International Bancshares (IBOC) (42.4%), Guaranty Bancorp (GBNK) (39.7%), Cullen/Frost Bankers (CFR) (35.9%), CoBiz Financial (COBZ) (26.6%), First Interstate (FIBK) (17.3%) and National Bank Holdings (NBHC) (16.3%), according to Morgan Stanley.

Exposures for certain banks mount if the analysis includes Houston and Dallas, two metro areas that may experience oil fallout as well.

Including Houston and Dallas, Cullen/Frost's exposure soars to 78%, while Prosperity Bancshares (PB) comes in at 37% and Zions Bancorp (ZION) hits 24%, according to Morgan Stanley.

**Too big to feel oil tumble?** Even Wall Street banks are facing questions about the impact of falling oil prices.

While just a small fraction of their total loan portfolio is directly tied to energy lending, Bove estimates around 20% of their investment banking revenue comes from energy.

JPMorgan Chase (JPM) CEO Jamie Dimon, in a call with analysts this week, acknowledged there may be "slight negatives" for the bank related to commercial and real estate trouble in Dallas, Denver and Houston.

Yet the big banks are well diversified. That means they should benefit from the anticipated boost to consumer spending caused by lower oil prices.

The oil price slide is "not going to be a big deal" for JPMorgan, Dimon said.

## **Important Message from the Membership Director**

Dear TAPL Members:

I would like to thank everyone who has renewed their membership and welcome the newest members to our organization. As your Membership Director, I would like to challenge you to invite new qualified candidates, engaged in Land Work within the Oil & Gas Industry, to join TAPL and encourage your co-workers who have been members in the past to rejoin. Any expired member will be able to renew their previous membership until 12/31/14, by contacting at me [jcampbell@cimarex.com](mailto:jcampbell@cimarex.com) or our Membership Administrator Grace Grimm at [gracegrimmtapl@gmail.com](mailto:gracegrimmtapl@gmail.com). After that date, expired members will be required to complete a new application through the website.

Thank you for making this organization a success! I look forward to watching TAPL grow even more over the next several months.

In the meantime, if you have any questions or concerns please do not hesitate to contact me or Grace.

Best regards,

Jessica Campbell

# Career Assistance Program

---

The oil and gas business has always been a cyclical business. During uncertain and challenging times we all could use a little help. As a reminder, TAPL has a committee to oversee the development of the Career Assistance Program (CAP). CAP's goal is to provide help for current TAPL Members who are presently unemployed and looking to regain employment by posting resumes, listing job openings, and networking. In order to fulfill our goal of ensuring that all members are gainfully employed, we need everyone's help. Before assistance can be provided, we must first be notified as to who may need assistance.

If you are currently unemployed, or know of a TAPL member that is currently seeking employment, please email your or their name and contact information to Debbie Langey, [debradlangley@yahoo.com](mailto:debradlangley@yahoo.com). TAPL, with permission, will also be posting resumes on the TAPL website in an effort to facilitate in the job hunt. Please send all resumes to Debbie Langey as well or you can log in and upload your resume yourself. Furthermore, CAP is currently building relationships with various employers in Tulsa in an effort to stay informed as to job openings. If you are aware of any employers seeking to fulfill land positions, please notify Brandon Ward at [bward@aritulsa.com](mailto:bward@aritulsa.com) and Brad Hargrove at [bhargrove@samson.com](mailto:bhargrove@samson.com).

Please note that all information will be handled with the utmost discretion, as privacy is of great concern. You can monitor the CAP's status, event schedule, and progress on the TAPL website and newsletters, coordinated by the Benefits Director, Russ Hargrove, CPL at [rhargrove@samson.com](mailto:rhargrove@samson.com). For more direct questions and concerns, contact Russ or the CAP's committee chair, Vickie Washburn, at [vwashburn2@cox.net](mailto:vwashburn2@cox.net).

TAPL Members,

As you know, our industry is constantly under fire from environmental groups in many cities & states across the country and AAPL is actively promoting and lobbying for our profession. Part of that goal is to stomp out misinformation that if left unaddressed can be very harmful to the progress of our industry. In the face of a dramatic legislative assault in Colorado, Anadarko Petroleum along with Noble Energy and others put together a short 40 page booklet or “toolkit” that explains some of the common practices of our industry and attempts to rectify some of the misinformation that exists amongst the general public that may not have the same exposure that we do to the good work that our industry is doing every day. This booklet is intended to serve as a tool to help those in-house and field landmen who are dealing with the public on a daily basis and it has been approved for wide circulation, so feel free to share it with your team. Approximately 10% of the material is Anadarko specific and the remaining 90% is factual science & economy based information that has been vetted and sourced by numerous organizations. AAPL has a similar “toolkit” and may dovetail this information into our own product and / or rebrand this and disseminate as an additional tool to the AAPL Membership, but until that time, the TAPL Board wanted to make it available to any of you who might be interested in using it in your day to day operations.

The logo for CIMAREX features the company name in a bold, white, italicized sans-serif font. The text is set against a black rectangular background. A large, solid red triangle is positioned to the right of the black rectangle, with its hypotenuse facing left, partially overlapping the black area and the text. The entire logo is contained within a white rectangular frame, which is itself set against a larger olive-green background.
